Your advantages

Optimised productivity

Constant size of the final product

Minimum and predictable maintenance costs

Offering you an attractive scrap buy-back program.

We are born recyclers, as more than 80% of our raw materials come from recycled goods. We invest into energy efficiency and renewable energy along with an active strategy to reduce, reuse and recycle. Circular economy is important for us. With multiple foundries around Europe, we are uniquely placed to offer an attractive scrap buy-back program.

We are looking forward to help you hammering down your costs.

Our experts cannot wait to discuss with you!

Magotteaux, a global leader with 100 years' of special steel expertise standing by your side.

At Magotteaux, we know it's an increasingly challenging world and any difference we can make to reduce the overall running cost of your operation will have a positive impact on your bottom line: we are committed to making your business as successful as possible.

Magotteaux is much more than just a supplier! As a true innovator, we invest continuously in R&D and develop strong close relationships to understand your challenges and define the best possible solution prior to engineering and delivering the promised quality. We use innovative and modern monitoring tools to prove our promise and optimize your operations.

Process optimization services and products for abrasive and impact applications.
