

Offering premium quality liners

Premium Manganese castings of all grades

Hundreds of references of bowl liners and mantles in stock

Rapid delivery from our European stock

The harder you hit it, the harder it gets

Manganese steel's ability to work harden from impact loading along with its exceptional toughness make it the best wear material choice for many demanding applications.

We offer manganese liners in grades of 14%, 18% and 22% with chrome ranging from 2% to 3% in order to answer the most demanding applications.
